

Objective

Cybersecurity enthusiast with hands-on experience through academic projects and cooperative training. Passionate about secure software development, network protection, and data privacy. Effective team leader with strong communication and project coordination skills. Always eager to innovate, collaborate, and improve digital security practices.

Education

University of Hafr Al Batin, BS Cyber Security

08/2020 – 05/2025

Cooperative training

King Fahad Medical City (KFMC), Riyadh, Saudi Arabia

06/2024 – 08/2024

Skills

- **Technical Skills:** Python, Java, Network Security Tools, Office365 Tools
- **Management:** project planning, Time management, Team coordination
- **Leadership:** Team leadership, Volunteer coordination, Monitoring

Projects

Enhanced IPsec Secure Tunnel

Graduation Project

- Built a secure IPsec tunnel between two branch networks using Cisco Packet Tracer.
- Enhanced encryption for both tunnel and transmitted data to ensure confidentiality and integrity.

Restaurant Rating Web App

KFMC

- Led development of a full-stack ASP.NET app with SQL Server and C#.
- Implemented role-based access, restaurant rating features, and export to PDF/Word/Excel.
- Managed UI/UX for key pages: login, dashboard, admin panel, and data views.
